## ABOUT ME

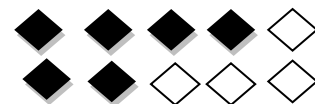

I consider myself an **ambitious** and **passionate** person. I like working and interacting with other people as I feel more **motivated** to work in a team. I try to constantly **learn** more and **develop** myself as both a person and a professional.

## EDUCATION

- 'Politehnica' University  
Bucharest: 2018-date
- Baccalaureate Diploma: 2018
- 'Carol I' National College  
Craiova: 2014-2018

## LANGUAGES

1. English
2. French

## PROGRAMMING SKILLS

- C/C++, Java
- JavaScript, CSS, PHP(Laravel),  
MySQL
- Python(Django)

## SOFT SKILLS

- Teamwork
- Calm
- Self-Confidence

## RELEVANT EXPERIENCE

---

- **Google Python Workshop**

In my third student year, I took part in Google's Online Workshop focused on Python. During the workshop, besides basic python use, I learned how to scrap, unit test and use Django to create web applications. In order to finish the workshop, I created an application using Python, Django and MySQL.

- **Online Antiques Shop**

I worked as a freelancer to create an online store for an antiques shop. For this project, besides an online user interface (HTML, CSS, JS), I also developed a database for managing both the items in the shop and the transactions that were made (PHP, MySQL).

- **MOFT**

I was involved in rewriting the back-end of a web application being used by over 1000 users. My work helped reduce the loading time of the page by at least 5 seconds and prevented the database server from crashing.

## VOLUNTEER EXPERIENCE

---

- **Liga Studenților din Facultatea de Automatică și Calculatoare: 2018 – 2021**

I was involved in the students' league as both a volunteer and an organizer in a series of events catered towards students, events which benefited from a large attendance. The experience I gained in this time helped me become a more organized and team-oriented person.

- **Rotaract Craiova: 2015-2018**

I participated as a volunteer in activities meant for the local community, specifically people in need. My work as a volunteer for Rotaract offered me the possibility to make a first contact with what teamwork implies.
